

INTRODUCING:

Heavy Duty Valve Train Kits

10-VKDDA60S-6

All QualCast HD VT Kits include: Valves, Guides, Keepers, Stem Seals, and Injector Tubes with O-Rings (if applicable).

Full kits include valve springs and are indicated by a -6 suffix for 6 product types in the kit.

Standard Kits do not include valve springs and have a -5 suffix for 5 product types in the kit.

Valve Seats can always be added to your order if desired for an additional charge.

When installing a QualCast HD Valve Train Kit, you are ensuring that all components have compatible materials and dimensional specifications. Kits ensure a discount when ordering multiple components, so why not replace your valve springs?

INTRODUCING:

Heavy Duty Valve Train Kits

CAT C15/3406E 24V			
	Full		10-VKCATC15-6
	Std.		10-VKCATC15-5
